

From 5th to 2th September prof. Aija Kļavina and assistant Karina Ostrovska from the LASE attended the Norwegian School of Sport Science (NSSS) as part of the Research and Scholarship Programme (LV05) co-financed by the EEA and Norway Grants project “Innovative Physical Activity Measures in Health and Sport Science Studies” (nr.EEZ/NFI/S/2015/021). During staff mobility visit prof. Aija Kļaviņa met with the head of the Sport education department prof. Aage Radmanu, who holds this position since September 2016. A.Kļaviņa and K.Ostrovska together with researcher prof. O.Standal and researcher assistant Anja Jondal Digranes worked on research project results and discussed the development of the outline of international research manuscript. Researchers agreed about the research work design for data elaboration in the project regarding the section of qualitative indicators. A.J.Digranes will do data collection. Additionally, colleagues discussed the agenda for prof. Standal to Latvia, November 21-27.
